EDUCATION

UNIVERSITY OF MINNESOTA Twin Cities, MN

B.S. - Computer Science May 2019

GPA 3.80

PROFESSIONAL EXPERIENCE

ATOS Plano, TX

Aug. 2019 – July. 2026

SOFTWARE DEVELOPER (REMOTE)

Responsibilities and Accomplishments:

- Developed a multitude of front- and back-end Java code solutions for our Guidewire InsuranceNow Platform via the completion of Jira tickets. Leveraged AI tools such as Microsoft Copilot for task completion.
- Communicated with other developers, business analysts, and QA testers to ensure full ticket completion through agile methodologies.
- Handled inbound critical Production Support tickets.
- Composed over a hundred necessary JUnit tests for files containing missing test coverage. Wrote, peer-reviewed, and executed numerous manual and automated test cases.
- Analyzed and debugged Jenkins' and bot failures daily to diagnose build issues.
- Maintained a Confluence knowledge base for the team.
- Experienced working with RPA bot development in Automation Anywhere.
